Professional Summary

IT graduate and former junior systems developer with hands-on experience designing, deploying and supporting web-based systems used in academic and administrative environments. Experienced in PHP, JavaScript, React, and database-driven applications, with additional experience in software testing including manual testing, functional testing, and regression testing to ensure system reliability and quality. Seeking entry-level roles in Quality Assurance, system support, or web development.

Education

Bachelor of Science in Information Technology, Specializing in Web and Mobile Applications
Far Eastern University Alabang — 2020-2025

Senior High School, Information and Communications Technology (ICT) Strand
University of Perpetual Help System DALTA — *2018–2020*

Skills

Programming Languages: JavaScript (ES6+), PHP, Python

Frontend: HTML5, CSS3, React, Vite

Backend: PHP (CodeIgniter), RESTful APIs, MVC Architecture

Databases: MySQL, MongoDB

Software Testing / QA: Manual Testing, Functional Testing, Regression Testing, Exploratory Testing, Edge Case Validation

Tools & Platforms: Git, GitHub, VS Code, Vercel

IT & Technical Support: PC Troubleshooting, System Maintenance, Basic Hardware & Software Support

Experience

Junior Systems Developer Intern — Far Eastern University Institute of Technology *(December 2024 – July 2025)*

- Developed and deployed a Render Farm Reservation System using PHP, CodeIgniter, MySQL, JavaScript, replacing Excel-based scheduling workflows and improving operational efficiency.
- Implemented real-time PC monitoring for availability, maintenance, and reservation monitoring to improve resource utilization and system visibility.
- Developed a Leave Management System integrated with the HRIS, automating Excel-based leave filing, approval, and tracking processes.

- Created employee-specific business rules and analytics dashboards to improve data accuracy and support HR decision-making.

Projects

- Alabites Food Ordering Application (React)
  - Thesis project developed for FEU Alabang food concessionaires
  - Built a centralized web platform enabling students to place food orders from multiple vendors
- Portfolio Website (React)
  - Personal portfolio showcasing projects, skills, and personal experiences
  - Implemented responsive layouts and modern UI practices
- WanderBot – Discord Bot (Python)
  - Developed a Discord bot providing game server monitoring and automated daily reward systems
  - Improved community engagement through scheduled interactions
- RotomDex – Pokemon Wiki Application (React + Vite)
  - Built an interactive wiki-style web application for Pokemon information
  - Integrated PokeAPI to display stats, evolution chains, and detailed data

Certifications

- ITS Python (Information Technology Specialist)
- ITS Databases (Information Technology Specialist)
